PROFESSIONAL SUMMARY

A results-driven, reliable and detail-oriented individual with a background in computer science. Very competent, confident and interested in IT and everything in its orbit. I recently got fascinated by web programming, e.g. developing apps and building websites.

I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team.

I am therefore currently looking for a job or an internship as a front-end developer.
